Tangerang, Indonesia | +6285155225405 | [Email](#) | [LinkedIn](#)

Computer Science graduate from Binus University with a specialization in Software Engineering. I possess diverse experience, including a year-long role as a System Analyst, where I honed strong analytical and problem-solving skills. I have practical experience as a front-end web developer using React.js from a year-long internship and six months of experience in Business Intelligence. Proficient in SQL and Python.
